

facts matter when they come from a friend >> share what you know

Believe it or not people listen to you. Your friends and other people at school hear what you have to say whether you realize it or not. And when the topic is something as important as pregnancy, your words will make a difference. So get the facts, know your options, and help someone make a decision that is right for them. That's what IN THE KNOW or ITK is all about.
